

Students at a two-day-long science fair organised by Bangladesh International Tutorial (BIT) in the city recently

Science Fair held at BIT

Bangladesh International Tutorial (BIT) arranged a two-day-long Science Fair-2019 in its Gulshan and Uttara campuses on October 16 and 17, says a press release.

About 200 students from Play Group to Class Twelve presented their applications, science fictions and various scientific projects at the fair.

The exhibited subjects include global warming system, climate change, greenhouse-effect, air pollution, water pollution, volcanic eruption, earthquake, solar energy, wind energy, housing settlement, healthcare, hydro electricity and robot.
