April 4, 2020

Dear Parents/Guardians,

The school hopes you are keeping well and observing the precautions to fight the ongoing Covid-19 situation. BIT is taking all necessary measures to accommodate the members of our community during this difficult time.

Research has shown that a face mask is an effective way to slow the spread of Covid-19 and other infectious diseases.

Hence, to create awareness and a sense of social responsibility, the school has prepared a plan for students from Classes V–VIII, to make homemade masks for the needy.

This project can be a combined family activity and is optional.

Please note the following:

- Students must find a surgical mask and follow its shape and size.
- You may use materials such as cotton tee-shirts, pillow cases, handkerchiefs etc.
- The masks need not be beautiful or neatly stitched, as long as they are effective against the Covid-19 Virus. It must sit firmly on the face, be clean and sustainable.
- Students will seal the masks in a plastic bag and send it to the Senior School in Uttara or Gulshan, **clearly mentioning the Campus name, Student's name, Class and Section.**
- The school will distribute the collected masks through different organizations, such as Jaago, Brac, the CRP etc.
- Any student who submits at least 30 masks will receive a certificate of recognition from the school.
- Kindly submit the masks as soon as you are able – the faster these are received, the more useful they will be.
- Please consult the links below for step-by-step tutorials and videos on how to make DIY masks at home.

The Covid-19 pandemic is a natural disaster and the world has been affected in many ways- this is an opportunity for our students to be proactive at home and to serve the nation.

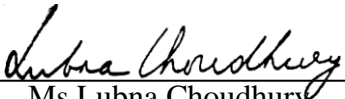

Thank you for your cooperation. Please stay safe and help stop the spread.
